Forecast for Tuesday 28 Jun 2022

Weather: Dry at first, though mostly cloudy. Winds will strengthen through the day with gusts of 45-50 mph possible by late morning. A band of rain will slowly spread eastwards throughout, with first patches of light rain reaching the Brecon Beacons by midday. Into the afternoon, and more especially the evening and overnight there is a chance this rain will turn heavy for a time. Winds will ease during the afternoon and evening though gusts of 30 mph are possible at times.

Chance of cloud-free hill tops above 600m: 30-40% at first, slowly decreasing through the day to less than 10% by late afternoon.

Low cloud and visibility: Moderate to good visibility at first with cloud bases generally above 600 m. This will deteriorate through the afternoon when cloud bases will drop below 600 m with some patchy cloud around 400-500 m.

Meteorologist's View

Strong winds close to or just above gale force will make for poor walking conditions on Tuesday especially at the summit. Though winds ease into the afternoon poor visibility associated with low cloud will see poor conditions continue and paths will become widely slippery underfoot with heavy rain possible.

Recent rainfall: measured at Neuadd: altitude 353m

14:00 on Mon 27 Jun 2022	11.8mm	13.6mm	20.8mm

Forecast for Wednesday 29 Jun 2022

Weather: Generally unsettled with a mix of bright spells and scattered showers, these merging into longer spells of rain at times.

Maximum wind: Southerly to southwesterly 15-20 mph with gusts of 20-25 mph during the morning. Easing to Southerly to southwesterly 10-15 mph by afternoon.

Chance of cloud-free hill tops above 600m: 10-20% chance at first, increasing to 60-70% later.

Low cloud and visibility: Cloud bases around the summit at first with some patchy cloud down to 400-500 m, along with some light to moderate rain, visibility will be moderate to poor. Cloud base generally above the summit later with good visibility, though in any showers cloud bases will drop to just below the summit with moderate visibility.

Temperature: **Valleys:** Plus 11 Celsius becoming Plus 16 Celsius later.

At 600m: Plus 9 Celsius.

Freezing level: Above the summits.
